

## GRADING TO MORINVILLE

## McCRIMMON'S CAMP GONE NORTH

Steel May Be Into the City in October  
Work to be Continued North and West at Once.

McCraddon's camp went through the city this morning to begin construction work on the line to Morinville. Just as soon as the different gangs get through with the sections they have on the line into the city they will move out on the line to Morinville.

The right of way west through the Stony Plain district is being purchased now. Engineer Burns is in the district at the present time and grading will be begun west as well as north almost immediately.

The erection of the station and round house, the latter to accommodate ten engines, will be pushed forward with all speed and the Y will be built across the Great estate to connect the E. Y. & P. with the new line.

If the laying of the steel is not interrupted by any accidents or serious delay, at the Port Saskatchewan bridge it will likely reach the city in October at the rate at which it is now being laid. If the steel gets here it October it will be continued on north at once, as the company purposes to push its construction work to the limit.

## EDMONTON HIGH SCHOOL

The High School re-opens Monday next, with the same staff as before holidays, but it is probable another teacher will be added early this morning to the large attendance in Standard VI. The attendance at the school has grown very rapidly during the past three years and the enrollment last year was 80, with an average attendance of 75. The course is that laid down by the regulations of the department for standards six, seven and eight and leads to junior and senior matriculation as well as to teachers' certificates. This year the candidates from the Edmonton high school, at the departmental examinations numbered 63, being 15 more than any other Territorial high school. If these 56 were successful, several completing their matriculation course by writing on special subjects.

## MOUNTED POLICE COMING

Early tomorrow morning a special train of twenty cars, drawn by two engines will arrive in Strathcona from the Mounted Police and their equipment. Inspector Knight has arranged with Mr. Pace of the E. Y. & P. to bring the train over to Edmonton station, and he expects to have everything unloaded tomorrow morning by six o'clock.

The camps at the exhibition grounds are all in readiness now, the cooks will be down this afternoon and the supplies will all be delivered before night, so that breakfast will be got ready for the men when they arrive in the morning. A quantity of hay was taken down for the horses today.

Inspector Shaw, of Fort Saskatchewan, will be in tomorrow with twelve men and, a few days later, four more will come in to make the contingent from the Fort number sixteen.

The companies will drill next week and have all arrangements made in good time for the first.

The cement walks on Jasper avenue are being rapidly completed. A piece from the Alberta to the Pen-dennis hotel is being put down this week, and will be completed before the celebration.

One drunk, \$5 or ten days was the police court record this morning. Charles King took the information that he was granted a reprieve of a month, very coolly. Whether his remark was a grant of approval or disapproval could not be determined.

## KAISER GETS BUSY.

## AND PEACE HOPES F DE

Japan's Minimum Proposals Submitted and Unfavorably Received  
Europe Expects Further War

London, August 25.—Under pressure from President Roosevelt Japan's proposals are now all in and she has conceded everything possible. She has offered to trade off the north half of Sakhalin Island for what would amount to a very fair war indemnity, but Russia is obdurate and despair reigns in almost every European capital. It is said the Kaiser stepped between the Czar and peace and has advised the latter to hold out for better terms.

## RESIDENTS DISTURBED

Editor Bulletin:

Very often the residents of the north side, on Namayo and Kinistino avenues get disturbed during nighttime by drunken men coming from the "Bad Houses" north of Rat Creek. They knock at doors, cry like "animal and tramp the sidewalks" and front porches of the houses. A few days ago such a man forced his way into the house of Mr. Ponzillius. Mr. Ponzillius and his boarder had hard work to drive him out. About eight other cases could be reported nearly the same. If this continues no respectable person will buy property on Norwood. It's a nuisance for the north end of the city. Would it not be time to bring this matter before the "Municipal Association" (pastors of Edmonton)? Down in the States they lynch them right away and make short business with them. Some of our Germans are determined to bring such dangerous men the next time to the pound-keeper, to be impounded at the cattle pound, instead of peaceful cows. That would be the proper place for such "human animals."

ABRAHAM HAGER.

## VISITED CANADA'S CAPITAL

Prince Louis of Battenburg Given a Luncheon in Ottawa—Marines Heartily Cheered

Ottawa, Aug. 25.—His Excellency the Governor-General and Lady Grey, Sir Wilfrid Laurier and some Cabinet Ministers leave on Sunday to attend the inauguration of the new provinces. Sir Frederick Borden, accompanied by the Misses Borden, will go on a trip of inspection of military stations as far as the coast.

Prince Louis of Battenburg spent the day in Ottawa and left tonight for Toronto. He was entertained at luncheon by the Canadian club and afterwards received an address of welcome from the city. This evening Sir Henri Taschereau gave a dinner in his honor. In replying to the toast to his health at the luncheon the prince said the navy was all right. Three hundred officers and men of the cruiser squadron arrived this afternoon on a three days' visit, guests of the Government. People assembled by hundreds on the streets and heartily cheered, as, preceded by the band, of the 43rd regiment, they proceeded to their quarters on Cartier's square.

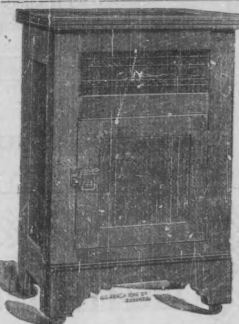

## GRAFT IN WINNIPEG.

Winnipeg, Aug. 23.—Charges that a city foreman held up men in the works department of the city employing for money or presents for securing them jobs or keeping them on, and that a foreman sent city wood and coal to their houses at city expense are being investigated by a select committee of the council.

**Build for Health**

If the Public Health Congress has accomplished nothing else, it has coined a new word for the London fog. Hereafter that peculiar London institution will be known as "Smog," a compound of "smoke" and "fog."

The new word, was coined by Dr. H. A. Des Voeux, of the Coal Smoke Abatement Society.

"The kitchen fire, charged with being the cause of 'smog,' was tried, found guilty, and sentenced to eternal punishment by two eminent authorities."

Dr. Des Voeux even professed to be able to detect three distinct diurnal fogs—the breakfast, the luncheon and the dinner fog. For years the factory chimney has suffered for the misdeeds of the kitchen fire, he said. He observed that on Sunday, when the kitchen fire was lighted later in the day, the early morning fog was an hour late.

"The time has nearly come when legislation should demand that all cooking should be done without smoke," he said.

As electricity was cheapened, he said, the electric fire would gradually take the place of the coal fire. As it was, the number of gas fires used for cooking had increased by \$70,000. Smokeless cooking would remove no fewer than 600,000 smoking chimneys.

Fogs caused by the kitchen fire cost \$25,000,000 every year, said the Hon. Rollo Russell, and, in addition to this, the depreciation in house values, the deterioration of health, and the depression of spirits, were also attributable to the effects of "smog."

London's deficient air supply was also discussed by the delegates. Dr. T. Glover Lyon, physician to the City of London Hospital for Diseases of the Chest, was the principal speaker on this subject.

"Owing to its deficient air supply a large part of London is quite unfit for the rearing of children, and also unfit to be a dwelling-place for men and women who are engaged in intellectual pursuits," he said.

He suggested that London's houses should be built in zones, each two of which should be divided by a space of open land. Fresh air should be brought to Central London by means of tube railways, through which it could be pumped, and by means of which impure air could be removed.

Small gardens and parks are wholly inadequate to allow a blast of pure air to enter. The consequence of that is we are killing our children and allowing weak children to grow up—a fair proportion of them to die a miserable death.

**China Awakening**

Although many conflicting reports are current in Pekin concerning schemes for the awakening of China, there are undoubtedly signs that at the close of the war the right moment will be chosen for taking decisive sweeping measures. Officials are to be sent to all parts of the world to investigate the systems of constitutional government, after the manner of the mission of Prince Iwakura subsequent to the restoration of Japan.

**FOLLOW JAPAN'S PLAN**

Two officials are to be sent to Japan itself. The deputations are to include the Minister of War, who in that capacity leaves China for the first time. The officials are also to be engaged in some secret mission regarding Manchuria. All will start a few weeks hence.

A published copy of a reform scheme drawn up by the powerful viceroy Yen-shu-Kai, finds considerable favour with the throne. It is as follows:

**SCHEME OF FREEDOM**

1 To give special privileges to local authorities.  
 2 To thoroughly reorganize the Government Administration; and appoint new officials throughout the empire.  
 3 To withdraw all distinctions between Manchuria and China, and bring the great province within the empire.

4 Not to place trust in all promises made to the Government, and to allow time for the adequate trial of a reformed administration.  
 5 Abolition of the old system of appointment of officials.  
 6 A scheme for helping the poor.  
 7 To establish schools throughout the empire.  
 8 To adopt conscription.  
 9 To allow a certain amount of independent action on the part of local authorities.  
 10 To strengthen the finances by gradually gathering in funds from all the provinces.

The officials of the province of Anhui have held a great meeting at which they decided to construct railways throughout the whole territory under their jurisdiction.

Four high Chinese officials have been ordered to proceed to Japan, Europe and America to investigate the systems of constitutional government.

One other object of this mission is believed to be an endeavor to induce the powers to call an international conference on Far Eastern affairs.

The Imperial Service Medal Association of Alberta has been assigned a place in the Inaugural Parade which takes place at Edmonton on September 1st. It is desired that as large an attendance as possible of members will be present on that occasion.

Every man who possesses a medal is asked to join the parade, and signify his intention by communicating with the Hon. Sec., Will Godson, Strathcona, giving the name of his regiment and his service. As it will add greatly to the appearance of the parade, it is requested that as many men as possible take part mounted and in uniform. It is further asked that those who can come on horse-back will please inform the secretary. This Association was formed about ten weeks ago and already numbers over one hundred members. The Indian Mutiny, the Fenian Raid, Indian Frontier, the Wolseley Expedition, the Nile Expedition, North West Rebellion, Matabele and Boer Wars, and many other medals are represented in the Association. The officers of the Association would like to see every man who has served in the army or navy and who holds an active service medal for same, join the Association. They take this opportunity of asking all such to communicate with Will Godson, Hon. Sec., Strathcona, who will be glad to furnish any information regarding the Association.

London's deficient air supply was also discussed by the delegates. Dr. T. Glover Lyon, physician to the City of London Hospital for Diseases of the Chest, was the principal speaker on this subject.

"Owing to its deficient air supply a large part of London is quite unfit for the rearing of children, and also unfit to be a dwelling-place for men and women who are engaged in intellectual pursuits," he said.

## WESTERN PROSPECTS

Mr. J. A. Allen, writing the Toronto Globe from Winnipeg about Western prospects says: "Expectations of taking off the largest crop on record this year now quite passes the minds of the people of this city. There is a full in business and an acute tightness in money that would be serious if they remained, but they will be relieved next month. This week's reports coming in from the Province and the Territories are all but uniformly favorable. There has been considerable showery and damp weather, but, as was the case to-day, the shower of the morning was changed into the clear sky and sunshine of the afternoon. The crop is ripening earlier than was anticipated when the dates of the harvesters' excursions from the east were set, and it is all but certain that the first arrivals will be picked up by the farmers."

## A GIGANTIC CROP.

The estimated area under crop in Manitoba and the Territories this season is put at 6,000,000 acres in wheat, oats, barley and flax. The total yield will approximate 140,000,000 bushels of all kinds of grain. The wheat acreage is estimated at 4,000,000. Manitoba is credited with 2,600,000 acres, and the Territories with 1,400,000 acres. With an average yield of twenty bushels to the acre, which at present seems probable, the total yield of wheat would be 80,000,000 bushels. If to that be added 50,000,000 bushels of oats and 10,000,000 of barley, the enormous figure of 140,000,000 is reached.

## GETTING OUT THE GRAIN

The task of transporting that huge harvest is one for which the railway companies are preparing themselves. The C.P.R. claim they will be able to take 400 cars of grain a day each way, east and west. Allowing that the Canadian Northern handle 100 cars a day, the combined carrying capacity would be equal to about 500,000 bushels a day, or 15,000,000 bushels a month. At the end of three months but 50,000,000 bushels would have been carried and there would remain 90,000,000 of wheat, not to speak of oats and barley. But the elevator capacity at Port Arthur, Ft. William, and western points is put at 40,000,000 bushels. If therefore becomes evident that the wheat crop in process of being cared for, but that the oat and barley crop will have to wait. A large proportion of both oats and barley will be consumed in the west.

## PRETTY WELL TIED UP.

These western people show their faith in their country by the rapidity and extent of their investments and enterprise. The situation is such this year that were anything serious to affect the crop, which seems now most improbable, the result would be disastrous. Farmers and storekeepers are tied up since last year, and Winnipeg is deeply interested in their harvesting operations. The banks have been carrying wholesale and retail men along, especially the latter, and the retail men have been carrying the farmer. But in that they have been assisted largely by the implement and loan companies. It is inevitable that as soon as possible the new settlers shall erect new buildings, and in the effort to get them, the farmers have gone their limit. Last year was not a big year. The aggregate crop was large, but the average was only nineteen bushels of wheat to the acre, which means that a lot of farmers had very thin crops to bring the average of thirty-five on some land down to the nineteen for the country. It must also be kept in mind that a good proportion of the wheat is second grade, i.e., Manitoba northern, and not all Manitoba hard. That reduces the price.

## CAUTIOUS FINANCING

The loan companies are extremely careful both in and out of Winnipeg. There may be those whose faith in the country is unbounded; that of the loan companies is limited. Loans to the extent of forty or fifty per cent of the valuation made by the company's own appraiser is the regular policy of safety. One reason for that is the demand for money is great, so great indeed, that plenty of investment can be found on the safe plans now followed, and at interest of eight and nine per cent. Such conservatism is calculated to save this city, and the country generally, from the wild speculation of a boom town or country, and under such a policy confidence in the country is sure to increase. One result is that in Winnipeg, although houses are in demand at a high rent rate, no great amount of speculation is being done by the professional speculator.

## Australia's Peril

A New Zealander, writing in the current Nineteenth Century, instead of sitting on an arch of London Bridge to sketch the ruins of St. Paul, takes his stand on the disheartening immigration statistics of Australia and sketches a doleful picture of the possible ruin of the dream of permanent "White" domination there. It is doubtful whether we, in the midst of our growing time, quite realize the present position of things in our sister colony. Immigration may be said to have practically ceased to the large island, though New Zealand is doing much better. From 1892 to 1903, Australia actually lost 1,875 more persons by departure than it gained by arrival. The terrible financial cyclone which swept over the colony explains much of this; but even in the last year quoted by the writer—1902—the gain in population by immigration was not as great as the number of Asiatics and other aliens who came to the island so that white emigration was still larger than white immigration.

The danger of the situation lies in the nearness of Asia, and the fact that Asia, under Japanese tutelage, is now very likely to become a continent whose people cannot be barred out of any country with contemptuous impunity. China, for example, is frightfully overcrowded, and will naturally look covetously down toward a vast empty island of three millions square miles inhabited by only four million of people. For a time, British prestige can gain respect for the most stringent Australian exclusion laws; but are we entirely certain that Britain can always afford to plant her flag as a bar between the sufficing millions of China and the wide spaces of Australia?

New Zealand is not in danger, partially because of her great distance and partially because she has a much larger population per square mile and has it well distributed on the land. The economic experiments in which New Zealand has indulged, and which have brought upon its head the ridicule of so many superior persons, do not seem to have frightened away settlers. New Zealand gained over fifty thousand during the decade quoted above, and is still adding to her population by immigration; and yet New Zealand is nearer to the Poles than Australia and is a long journey farther away from Europe.

Both colonies have today strong exclusion acts against all save persons of British parentage; and it would seem to be prudent—if the colony is to be saved to white settlement—for the barrier to be lowered at least toward Europeans. The United States and Canada owe agreement to their importation from Germany, Scandinavia and other European countries; and it looks like exceedingly poor policy for the Australians to cast away this assistance in making their island a "white man's country." If work is scarce, merely laboring immigration need not be admitted; but the man who comes to farm, and is able to equip and work his farm, is an addition to any nation.

The coming expansion of China is a problem which the world may as well face. Her closely packed population will not stay at home when there are empty territories all about them; and the moment China becomes a naval or military power, it will be impossible for any government to shut-out her people on the simple ground that they are Chinese. This may be an uncomfortable truth, but there is no dodging it; and any who think that it is an empty menace should take note of the decree emanating in which our Uncle Samuel is already submitting to the boycotting of his goods in Chinese cities. The shutting-out of India's opium not so long ago led to the Opium War but President Roosevelt is not thinking of an anti-boycott war. And China has not yet awakened at all. There is only the coming shadow of it to teach the Americans moderation.

## MISCELLANEOUS

N. 1-2 13-50-15 Vermillion River runs through this land with some small timber along its banks, otherwise it is clear; slightly rolling, soil black loam.

W. 1-2 and N. E. 1-4 of 4-50-18; some small brush on part of it, nice creek runs across one quarter; soil black loam.

2. 1-2 25-50-18, surface slightly rolling; some bunches of brush, good soil; half mile from school; church at corner; a splendid half section.

S. E. 1-4 23-50-18, some bunches of brush, good deep black soil, a splendid piece of land.

S. W. 1-4 13-50-1, West 5th Meridian. This land is in the Strawberry country, west of Leduc; splendid soil.

All Sec. 25-51-14 and W. 1-2 and S. E. 1-4 Sec. 30-51-13, 1120 acres of fine land two miles from the main line of the Canadian Northern.

All Sec. 17-51-15 in the Vegreville District; fine soil, nearly all open.

## Township 51

Fractional S. 1-2 15-51-12 (277 1-2 acres) surface slightly rolling; C. N. R. cuts 2 acres off N. E. corner, soil black loam, nice deep lake in one corner of land.

S. W. 1-4 22-51-15 surface slightly rolling, some brush on part of it, soil black loam, a nice piece of land.

N. W. 1-4 21-51-12 slightly rolling, good black loam soil.

N. W. 1-4 23-51-13, slightly rolling, good black loam.

E. 1-2 Sec. 15, Tp. 55, R. 26, slightly rolling, black loam, clay subsoil, 20 acres meadow; choice half section covered with peavine and vetch.

W. 1-2 23-55-26 surface nearly level, black loam, choice piece of land, 1-2 mile from P. O.

## Township 52

N. 1-2 and S. E. 1-4 28-52-26, nearly all open land, soil black loam, surface gently undulating, choice piece of land; will sell separately or en bloc.

S. W. 1-4 25-52-26, nearly all open land, and easily broken, fairly level, good log house and walls of logs for stable.

S. W. 1-4 34-52-17, some small brush and bunches of poplar, soil deep black loam, a splendid piece of land near Beaver Lake and about 6 miles cash, balance in three yearly payments to C. N. R.

N. E. 1-4 8-52-1, west of 5th Meridian.

S. E. 1-4 17-52-1, West of 5th Meridian.

N. W. 1-4 17-52-1, West of 5th Meridian.

Some improvements on part of this land; some brush, and some bunches of poplar on parts of it, the whole or part of it may be sold.

Fractional S. 1-2 28-53-23, one mile on river front; slightly rolling, black loam, log house, 1-1-2 stories; all fenced with wire; a choice piece of land in a good locality.

S. 1-2 34-52-15, fine land, Canadian Northern within one mile.

## Township 54

N. W. 1-4 30-54-26, 55 acres under cultivation; all fenced, 50 to 60 tons hay can be cut on land; log granary; a good piece of land.

N. E. 1-4 28-54-25 and S. E. 1-4 33-54-25, 60 acres under cultivation; nearly all fenced, some buildings, would make a good stock farm.

N. E. 1-4 of 15-54-14, a splendid quarter, every foot can be farmed; good locality.

## Township 55

E. 1-2 20-55-25, 100 acres under cultivation; all fenced, mostly with wire, good frame house, log barn 70 x 30 feet, good well, soil, deep black loam, a splendid property.

N. W. 1-4 2-55-26, all fenced and cross fenced, soil black loam, nice creek runs across the land, 90 acres under cultivation; good frame house, stables and granaries of logs, good well, a splendid farm, 3-4 miles from school and post office.

N. 1-2 31-55-18; E. 1-2 55-18; W. 1-4 35-55-19, close to C. N. R.; soil black loam with some brush and small poplar on them, will sell separately or en bloc.

## Township 56

N. E. 1-4 8-56-25, 85 acres under cultivation, 75 acres in crop; all fenced, frame house, 18x20 and addition 14x14, log barn 24x24; surface level, soil black.

N. W. 1-4 33-56-26 and S. W. 1-4 4-56-26, 125 acres under cultivation, good frame house, other buildings, logs, good well, all fenced, a splendid farm.

River lot 27 in the Edmonton district, 150 acres; 75 acres cropped; frame house, 6 rooms, stabling and granary, 2 good wells. Coal along the river, all coal rights go with the farm.

# CRAFTS & LEE

## NOVEMBER ELECTIONS

## IN THE NEW PROVINCES

One Hundred Members of the Mounted Police Leave Regina To-day for Edmonton

Ottawa Aug. 25.—It is said elections in the new provinces of Alberta and Saskatchewan for the choice members of the first Legislatures will be held about the middle of November. Lieutenant Governor Bulyea will select as his chief adviser A. C. Rutherford who at present represents Strathcona district in the Territorial Assembly. Western men give no credence to the report that J. H. Lamont, who has just returned to his home from the Capital has any intention of accepting the position of Attorney General of Saskatchewan. Lament they say will obey the wishes of his friends and remain in Federal politics.

The North West Mounted Police department has been notified that 100 men and 100 horses will leave Regina tonight to be on hand at the inaugural ceremonies at Edmonton on September 1st. Between Regina and Edmonton the police will gather additional strength so that there will be an escort of 200 for His Excellency at Edmonton. The full contingent will also be able to turn out at Regina on the 4th.

## MACHINE WORKS DESTROYED

Sarnia, Aug. 25.—Fire last night destroyed the Canadian Machinery plant outfit at Point Edward causing a loss of \$200,000 with \$80,000 insurance. Bank of Toronto is heavily involved.

## OARSMAN COMES WEST

Toronto, Aug. 25.—Tom Sullivan, recently defeated by Durman leaves for Winnipeg next week where he has relations and where he will probably row the crack oarsman of that club.

## OBITUARY

Mrs. Robert T. Purvis, of Leduc, died at the public hospital in the city on Wednesday of this week. Mrs. Purvis has been unwell for some time and her death was not unexpected. Her mother and brother, Mrs. Green and Mr. W. Green, of Vancouver, reached the city in time to see her before she died.

Mrs. Purvis lived for some years in Strathcona and in both that town and Leduc had many friends. Deceased was a consistent member of the Presbyterian church, and will be much missed both in the congregation and in her home neighborhood. She is survived by her husband and two little boys, one four years old and the other six.

The funeral took place yesterday afternoon from the home of Mr. H. E. McKenzie, of Strathcona, to the Strathcona cemetery. Revs. Hurdman, of Leduc, and Fleming, of Strathcona, were in attendance at the funeral.

## PERSONAL

Dr. Wade went to Calgary today.

L. Savard returned from the east yesterday.

H. Williamson returned from Calgary yesterday.

The Miss Chegwins came in from the south last night.

Miss Laroque returned from Wetaskiwin yesterday.

Mr. Crough and party bagged 72 ducks on Thursday.

Mr. and Mrs. James McAllister left morning for Banff.

Mr. Theo. Revillon is expected home from Prince Albert today.

P. E. Lessard returned from a six weeks' trip to the east yesterday.

H. M. Dawson and party returned from a shooting trip to Leduc last night.

W. Rae, principal of the Edmonton high school returned yesterday from the east.

J. Donovan left again for the north today after spending two weeks in the city.

R. H. Johnston of the Edmonton high school staff returned from Toronto on Wednesday.

J. R. Barrett, Inland Revenue Inspector and assistant to E. I. Saucier, went to Calgary last night.

Mrs. Kirkpatrick and children and Mrs. Kinnaird and children, return tonight from camping at Gull Lake.

Miss Lily Smith of Southampton, Ont., has arrived in the city and will teach school in the vicinity of Edmonton.

## LOCAL

—Crops in the St. Albert district are fully up to the average of the season and harvest is well under way. The barley is all in stook, also the bulk of the wheat and a considerable percentage of oats. The standing oats and wheat are ripening very fast, and a few more days of fine weather will see the entire crop cut and stooked. All varieties of grain are well headed and promise a bountiful yield. Very few fields are down badly.

—T. M. Knappen, secretary of the Western Canada Immigration Association writes: Returns from the Washington correspondents' excursion through western Canada, conducted by this association, have now come in to such an extent that it is possible to give an idea of the amount of publicity obtained. Up to date more than two hundred articles have been clipped and filed in the secretary's office, and additional articles are coming in from time to time and will do so for many months to come. As soon as possible the secretary will issue a booklet of excerpts from articles appearing in various papers and will distribute copies to members of the association. It will suffice for the present to say that, roughly speaking, at the lowest calculation \$20,000 worth of space was secured in a large number of metropolitan papers of the United States in consequence of this tour. Possibly, however, the greatest good to come from the tour will result from the education it gave to a score of influential American newspaper men. In this way the tour makes a permanent contribution to continued publicity for western Canada.

## MANITOBA MARKETS

From the Commercial:—

Wheat—1 northern \$1.01; 2 northern, 98c; 3 northern, 97 3/4c; No 4 extra, 69 1/2c; No 4 wheat, 96c; No 5 wheat, 61c spot or August delivery; these prices are for old crop. ## INAUGURAL COMMITTEE

## COMPLETING ARRANGEMENTS

The Different Committees Have Their Work Well in Hand—Everything Will be Ready for the First

The general committee for the Inaugural Celebration met last night in the council chamber and heard the reports of the several committees. The work is all well in hand and every committee was able to report progress and to promise that their work would all be completed before September 1.

The utmost harmony and the greatest enthusiasm prevails in the different committees and the success of the celebration in every particular is now assured.

A meeting will be held on Saturday, evening to finally arrange the program and then everything will be settled. With good weather the day will be a glorious one.

The mayor called the meeting to order last evening and asked for reports from the different committees. For the reception committee Mr. J. A. McDougall reported that eight members has been selected to go down on Thursday afternoon to meet the visitors. They would distribute programs of the proceedings. A reception room had been arranged at the Alberta College with an official and a secretary in charge, where a register will be kept. The city's guests will be furnished with a neat range to distinguish them from the general public. The program had been submitted to their excellencies and received their endorsement. And in it a reception was arranged to be held in the rink immediately after the concert. Light refreshments would be served at Alberta College on the afternoon of Thursday and all day Friday. A committee consisting of Messrs. Boyle, Mercer and Picard had been arranged to meet the guests down the line and the mayor and G. H. F. Kirkpatrick were to meet the welcome party which was coming overland.

The members of the ball committee and the concert committee have been added to the reception committee also the wives of the members of the committee.

Mrs. Hardisty was requested to act as convener of the ladies' part of the committee.

The decoration committee reported their arrangements about complete. The arches were going up and an exhibit of agricultural products was being arranged.

On motion of Kirkpatrick and Mercer the city authorities were requested to have enclosures around buildings under erection on Jasper avenue removed and a temporary sidewalk laid.

The reports of these committees were approved.

Mr. C. W. Tait requested that some arrangements be made by which he could get photos of the Inaugural proceedings. On motion of Picard and Kirkpatrick Messrs. Tait and Brown were appointed official photographers, the details of the arrangements to be left in the hands of the secretary and the Inaugural committee.

Alderman Grimes reported that the arrangements of the parade committee were incomplete yet, but were being made. The parade will assemble at 9 a.m. The parade would be from the west end of Jasper avenue to Third street, south one block, thence along College avenue to club corner and down Ross grade.

For the Inaugural ceremony committee, Mayor Mackenzie reported that a platform, 30 by 60 feet would be arranged for the reception of the city's prominent guests. Arrangements would be made for the accommodation of the press representatives. A raised dias would be constructed on the platform and a canvas cover would be arranged for the platform. The report of the committee was adopted.

Mr. Ramsay reported for the school children committee that some 1600 school children were expected. Some 700 or 800 children were expected from Wataskwin. It was proposed that the children should join the parade at Queen's avenue. The report was approved.

The games committee reported that the arrangements for the games were all completed as had been stated at the last meeting.

Mayor Mackenzie stated that it would be possible to have a review of the Mounted Police and also a

musical ride. On motion it was decided to have the same arranged for if possible.

Ald. Clark reported for the street music committee that Bailey's orchestra had been engaged, and street music was being arranged for. The report was adopted.

The work of the concert committee was reported to be well under way and its arrangements would be completed.

The ball committee reported progress. Their lights and decorations were being put up and everything would be in shape for the evening of the first.

The souvenir committee reported that 1,500 copies of the souvenir would be ready for distribution in time. Probably some copies of the souvenir would be sold to persons who wished more than one. A copy would be given to each of the visiting newspaper men. The details of how the souvenirs were to be distributed had not yet been arranged. The secretary would have a number of copies at the headquarters at the Alberta college. The report was adopted.

Mr. Cooper mentioned the fact that there would be a great many people on the exhibition grounds on September 1st and some arrangements should be made by which they could be provided with meals. The mayor said that a number of persons were willing to go to the grounds to cater for the day, and arrangements should be made for the same.

On motion of Mercer and Kirkpatrick that the privilege of opening booths on the exhibition grounds be granted free of charge and that applications for the same be made to Mr. W. H. Cooper, who will make the arrangements. The meeting adjourned to meet for final arrangements on Saturday evening.

Madame Ledermann begs to notify the ladies of the city, that having worked for some years at dressmaking in the first establishments of Paris and the United States is now prepared to take orders on Clara street, the third house west of McDougall avenue. Her attention to orders and irreproachable work should be a sufficient recommendation.

## Western Progress

Continued from page three

labor. Many houses are going up, but they are being erected either by the contractors for sale, or for occupancy of the man who is having the particular house built. Frame houses are away in the majority, and are a marked contrast to our eastern towns.

## THIS YEAR'S ARRIVALS

As the gateway of the west, Winnipeg receives practically all the immigrants passing on into the new country. The task of handling them therefore, is no small one. It is estimated that about 70,000 have come in since January 1, 1905. Nearly one-half of that number are from Great Britain and Ireland and the balance from the United States and continental Europe. The decreased immigration from the United States has been more than made up by the increase from Britain and also by the good class of Scandinavians. There have been fewer foreigners of the undesirable races arriving, but not as many desirable of those wanted to do the manual labor of the country as are needed. The returns for the year ending June 30, 1905, show that 362,948 immigrants entered at the Atlantic ports, 678 at the Pacific ports, and 13,343 from the United States, a total of 376,969, which is an increase over the preceding year of 16,000.

## DEPORTING THE UNFIT.

In addition to the care exercised at all ports of entry, the authorities here are vigilant to detect any cases of persons unfit to make their way in the world. During the past month 27 persons physically incompetent or insane, were sent back to the eastern ports for deportation. Such commendable vigilance must result in keeping the mental and physical standard of the population above what it was in those parts of Ontario settled by State-aided colonization schemes. A splendid new immigration building of stone and steel construction is now in course of erection at Winnipeg near to the site of the old one. The new building will be ready for occupation in the fall, and will have accommodation for 700 people. The staff of thirty-five, under the direction of Mr. J. Obed Smith, can handle 2,000 immigrants in a day. New arrivals are seldom here more than twenty-four hours. Since January 1, 1905, over 7,000 persons have been placed by the office on farms all over the west, and the satisfaction given is evidenced by the fact that less than a dozen instances have reported failure on the part of the men or women sent.

## BETTER CLASS OF IMMIGRANTS

Labor conditions in Winnipeg are more satisfactory than they have been for some years. The immigration this year has not only been large, but of a good quality, and this will tell on the harvest time rush for farm hands. The railway companies are in the habit of letting up all extra work where possible at this season. Many of their men become restive because of the tempting wages offered on the farms, and cannot be held. Besides, the railways are anxious to facilitate the work of harvesting by letting go some of their extra men. But, notwithstanding all, it is estimated that not less than 15,000 additional men will be needed to take off the crop this year, and that eastern Canada must supply them. Wages are likely to be good.

## RAILWAY ACTIVITIES.

The railroad companies are actively planning to meet the needs of their big constituency this fall and to get each their full share of the traffic. The Canadian Northern will add about 500 miles of track to their system this year. Lloydminster was reached last week, a point about midway between Battleford and Edmonton. Before the snow flies, the C.N.R. will reach Edmonton and take out this year's wheat. The Canadian Pacific are following up their Arcola line, which when completed last year opened up an excellent country, with another one from Wolsley to Repton, going through 120 miles of wheat land. A line from Lacombe on the Prince Albert branch, was built east for 50 miles. The northwestern branch has been extended up beyond Yorkton, and it is intended to build a line from a point above Yorkton across into Edmonton and in that way tap a rich wheat belt. A short line of nine miles was built this year from Winnipeg Beach to Gimli, and another of 30 miles from Teulon to Iceland River, which ought to bring a lot of much-needed cheap fuel into the city apart from its service to that district.

## LOCAL

—Atwin & Co. are removing today to the offices over the old Bank of Montreal building.

—The Bank of Commerce building will be decked out with electric lights for the inaugural celebration.

—The old timers' arch is being decorated with green boughs today, and when completed will have quite a rustic appearance.

—Electric lights are being put up on the front of Hall's confectionery store this morning, to add to the illuminations of the city.

—Yesterday's C. & E. regular was an hour and a half late, occasioned by a plug having been blown out of the boiler at Morningside.

—There has been a binder twine famine in the city for the past few days. Many farmers have fields of grain ready to cut and are unable to get twine to tie it.

—Winnipeg, Aug. 23.—Lucien Dubuc, the son of Justice Dubuc, announces himself as a candidate in the River district in Alberta, and left this morning for Edmonton.

—Mr. Alex. McAulay leaves for Fort Saskatchewan today. He has the contract of moving a church off the right of way of the C. N.R. in that town.

—The Johnstone Walker block is to have elaborate electric decorations, some two hundred and fourteen incandescent lights are to be arranged on the front of the building, so its illuminations will add to the brightness of things next Thursday evening.

—The baseball team went down to Wetaskiwin this morning to play in that town today. They had to take two junior players with them and then go one man short, as it was impossible to get the team together. They hope, however, to get the team in shape to play a good game on the first.

—The mayor of Edmonton has declared September 1st, Inauguration Day, a public holiday, and has also requested the merchants of Edmonton to close their places of business on Thursday, August 31st, not later than 8 p.m. in order to make it possible for all who wish to do so to be present at the concert and reception on that evening.

—The public schools re-open on Monday, August 28. On account of the many changes in the classification of the pupils, rendered necessary by the opening of the new school on Mackay avenue, Principal Ramsay requests that all be present on the first day that he may assign them to their proper rooms. All pupils west of First street and south of the station grounds, and also those on the flats, will go on Monday to Mackay avenue school, and the rest to Queen's avenue. There should be a large attendance of pupils in Standard V. as, should the number be sufficient, a class will be held in Mackay avenue school, making it more convenient for those living near there. A few whose names were not published in July as being successful in the examination for promotion to Standard V. may be promoted, after consideration of the teachers' report of their work during the past term. Children just beginning school must be at least six years of age, and can be admitted to the primary rooms only at the beginning of a term.

We have just received a  
big consignment of

FLAGS  
AND  
Bunting

for the Ceremony on the  
1st of September.

Everyone should make it a  
duty to decorate their homes  
for this great occasion.

We would also ask all those  
intending purchasers to select  
or place their orders with us  
at their earliest convenience  
to avoid the rush of the last  
few days.

The Cream Separator  
that is the  
Cheapest in the End.

There are some folks who are everlastingly trying to get "something for nothing." They buy a wagon at a "bargain" price because the agent says it's "just as good." And then, after a few months, when the tires and spokes have all loosened up, they cuss the wagon.

Price not the only difference.

It's the same way with cream separators. You can buy many other separators for less money than the U. S. Cream Separator sells for, but before you've finished paying for the experiment you'll find price isn't the only difference. The cheaper separators soon get out of adjustment because built of cheaper material by inferior manufacturing methods; they consume twice the necessary amount of oil; they have a bowl that will not run true, and does not skim clean. The repairs in the first few years would pay the difference for the U. S. Cream Separator.

Durability is important.

The U. S. Cream Separator has stood the test of time. Many of them have been in use for 10 years, and cost less than a dollar for repairs. They run easy, skim cleaner than others, have a simple bowl, enclosed gears, and a convenient low supply can.

## The Vermont

Farm Machine

Co., of Bellows Falls, Vt., have printed in a handsome booklet a few of the thousands of letters from satisfied users of the U. S. Cream Separator. This booklet will save you money when you buy a separator, and a post card will bring it to you.

To insure prompt deliveries and to save freight charges for their Canadian customers, they ship from their warehouses at Montreal, Sherbrooke, Hamilton, Winnipeg, Calgary and Vancouver, but all letters should be addressed to Bellows Falls, Vt.
